Plovdiv, Bulgaria

EXPERIENCE

Junior Front-End Developer

CodeCoda Ltd.

09/2019 - Ongoing Plovdiv, Bulgaria

<https://codecoda.com/>

During my time here I have:

- Learned Vue to a proficient level, along with its add-ons - Vuex for state management and Nuxt for server-side rendering
- Implemented various new functionalities on the front-end as well as maintained a high code quality by refactoring existing project segments
- Researched and implemented third-party libraries (creating a custom build in the case of CKEditor5)
- Assisted in debugging and code reviews regarding Vue, Angular, JavaScript and CSS
- Guided a colleague through learning Vue

PROJECTS

JomoTrip

06/2020 - Ongoing Plovdiv, Bulgaria

<https://jomotrip.com/>

JomoTrip is a site for organizing trips.

I am chiefly responsible for the front-end. My tasks thus far include implementing the front-end redesign of the site, creating most of the new components and giving advice based on my knowledge in Angular.

Technologies used:

- Angular (9 and 10), TypeScript, JavaScript, C#
- Material, Angular CDK, Swiper.js
- HTML, CSS/LESS, Bootstrap
- ASP.NET Core, SQL Server
- Azure DevOps, Jira

MeTime

11/2019 - 06/2020 Dublin, Ireland

<https://metime.com/>

MeTime is a mobile app connecting providers of cosmetic treatments with their clients.

I am one of two people tasked with creating and extending the admin and vendor panels front-end, used by administrators and treatment providers.

Technologies used:

- Vue, JavaScript
- Nuxt, Vuex, CKEditor
- HTML, CSS/SASS, Bulma, Buefy
- Node.js, nginx, MongoDB
- GraphQL, Apollo
- GitHub, Bitbucket, Jira
- Docker

EDUCATION

Student at SoftUni

Software University

2016 - 2019 Sofia, Bulgaria

In SoftUni I learned to program and earned a certificate for Java Web Development. During my time there I learned:

- OOP with C# and Java
- Debugging and unit testing
- Building custom web servers and using existing ones like Apache, nginx and IIS
- Working with databases, SQL and Hibernate
- Creating MVC web apps with Spring Boot and ASP.NET Core
- Front-end frameworks such as React and Angular. HTML, CSS and Bootstrap
- Machine learning concepts such as data modeling, algorithms and model training

Informatics student

Plovdiv University "Paisii Hilendarski"

09/2020 - Ongoing

Secondary Education

EDS Plovdiv

2010 - 2015

GPA

4.86 / 6.00

LANGUAGES

Bulgarian

Native

English

Proficient

German

Intermediate

PROJECTS

Rooms2U

📅 09/2019 - 02/2020 📍 Farnborough, UK

🔗 <https://rooms2u.com/>

Rooms2U is a marketplace for portable rooms.

My tasks here involved creating and refactoring various components and pages on the front-end site.

Technologies used:

- Vue, JavaScript, TypeScript, PHP
- Nuxt, Vuex, Phalcon
- HTML, CSS/SASS, Bootstrap
- nginx, MySQL
- Bitbucket, Jira
- Docker
